Building a Turning Point TOWARDS A BRIGHTER FUTURE

DEAR PARTNERS AND SUPPORTERS,

Building a resilient future requires a strong foundation, and I am proud to share our efforts over the past year to lay the groundwork for a future free from domestic and intimate partner abuse.

Our team of dedicated volunteer and paid Advocates have worked tirelessly this past year to provide trauma-informed support to 3,480 survivors and their children. Through emergency services like our 24/7 Helpline, safe shelter, empowerment counseling, legal advocacy, as well as those services meant to help survivors attain long-term stability such as financial planning and transitional housing assistance, we empower survivors to reclaim their lives and envision a brighter future, free of abuse.

One of our key accomplishments this past year has been the expansion of our prevention initiatives. We believe that by addressing the root causes of domestic abuse, we can foster a culture of respect and equality. Through community workshops, awareness campaigns, and school-based programs, we have reached thousands of individuals, challenging harmful beliefs and promoting healthy relationships.

We are also proud of our partnerships with other programs, like Equilibrium and North Penn Legal Services, that continue to be instrumental in amplifying and deepening our impact for survivors and their children.

Finally, we recognize that building a future free of domestic abuse requires ongoing innovation and adaptability today. As we embrace new technologies and approaches, we aim to further enhance our outreach, engage more individuals and communities, and create lasting change.

Together, we are building a turning point towards a brighter future.

In Peace,

Sheila Ketterer

One Survivor's Timeline

ROAD TO HEALING AND NEW BEGINNINGS

- July 4, 2022

While holiday celebrations were taking place outside, inside, Erica was being terrorized by her boyfriend of six years. Trying to de-escalate the situation, **Erica knew this time was different and she needed to leave.**
- July 5, 2022

While her abuser was at work, Erica took out the Turning Point pamphlet from her purse, given to her by a friend at church. After calling and hanging up a few times, **she finally called and spoke to one of their Safe House Advocates about developing a safety plan.** Despite being unemployed with no form of transportation, she displayed an unwavering determination to improve her and her four-year-old daughter Sarah's situation.
- July 7, 2022

Erica made sure to pack only the essentials and **turn off the location services on her phone before taking the Uber to Turning Point's Safe House.** Her abuser was out with friends when she left.
- August 10, 2022

It's been over a month now since Erica and her daughter arrived at the Safe House. During that time, it became evident that Erica had a traumatic brain injury from the physical abuse she endured. Working with Turning Point's Medical Advocate, **Erica was connected with compassionate doctors who addressed her healthcare needs,** bringing much-needed relief and reassurance. Now, after taking some time to heal, Erica is ready to start thinking about her and her daughter Sarah's future.

All personally identifying information has been changed for safety reasons

- August 17, 2022

Erica's now ex-boyfriend continues to message her on Facebook with various apologies, which quickly evolve into threats when she doesn't respond. **Scared, Erica works with a Turning Point Legal Advocate, who helps her obtain a temporary Protection From Abuse Order,** and later successfully assists her in navigating the process of obtaining a permanent Protection From Abuse Order.
- September 20, 2022

It's only the second time Erica has attended a support group, **but she's already feeling more confident and joyful than she's felt in a long time.** Hearing other stories about abuse has sharpened her understanding of her own abusive relationship and emboldened her to move forward. Although she has moments of doubt about whether she can really do this on her own, the email she received from a potential employer today fills her with a renewed sense of hope. Sarah's also doing a lot better since arriving in July. She's more communicative than ever and is laughing and playing with the other kids during Homework Club. **Working with a Safe House Advocate, Erica continues to develop her goal plan.**
- October 21, 2022

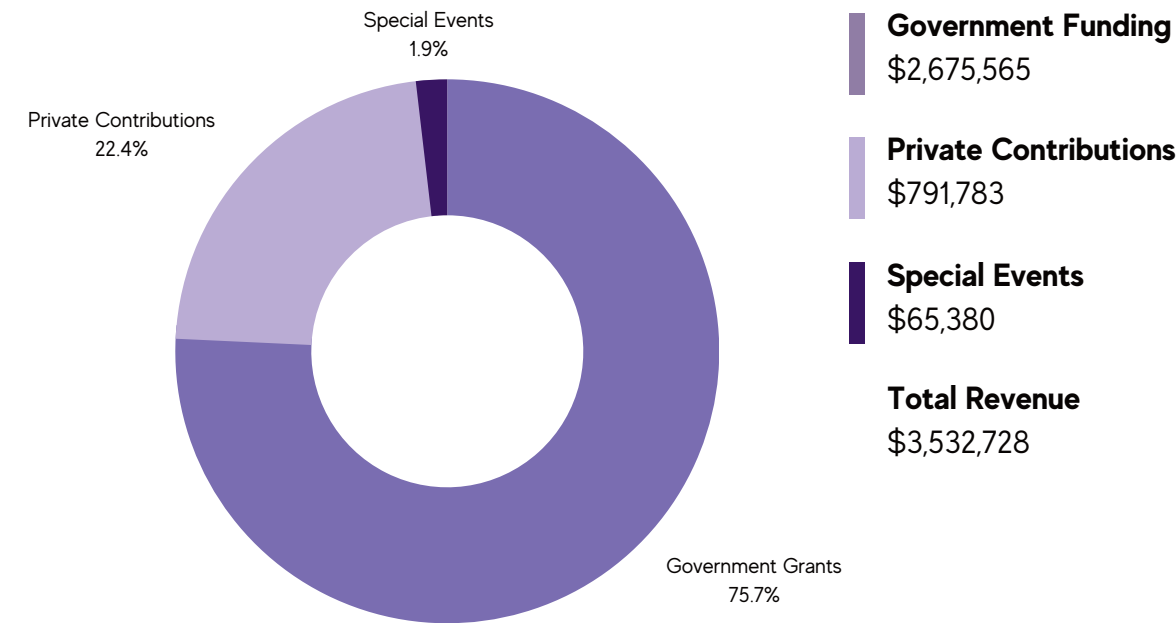

Erica got the full-time job as an assistant at a local screen printing company. It's also nearby the apartment she just applied for with the help of a Turning Point Housing Advocate. Through several partnerships, including with The Provident Bank Foundation, **the Housing Advocate is able to help Erica with the rental application and to purchase new clothes for her job** at the screen printing company. Erica continues to attend support groups and **work with her Community Advocate on how to cope with her trauma.** Although Erica and Sarah have a long way to go, she feels, **for the first time in her life, that she is safe and happy about what the future has in store.**
